can u access the internet? including youtube and news

Yep — I can access the internet, check news, websites, and even pull info from YouTube (like titles, descriptions, transcripts, etc.) so I can summarize videos for you.

I can't actually *watch* or *play* YouTube videos like a human would, but I can fetch the transcript and break it down for you. Same with news sites — I can grab fresh info and give you the highlights.

Wanna test it out with a YouTube link or today's news?

okay so i need you to answer my question based on internet real UpToDate information, not you prior knowledge

Got it 👍 — if you want an answer based only on real, up-to-date info from the internet,
